

Reminder before Shabbat

❖ **It's forbidden to use wet wipes on shabbat, using them commonly or softly**

❖ However, it's possible to wipe one's body during shabbat using completely dry wipes, vaporizing water on the body and wiping one's body with dry wipes

- Consequently, we have to remember before Shabbat to completely dry these wipes (we can use a hair dryer)

- But we have to care that after having used these wipes, and that water has penetrated into the wipes, we don't go on using them in order that we don't wring.

- That's why we have to use dry and thick wipes (or lots of drying wipes together) where the liquid is not absorbed so quickly and that way, we don't come to wring.

Since many people use wipes during Shabbat, it is a mitzvah to publish this halakha to prevent people from making a mistake. The people who act to make the audience deserving will be blessed by God!
